

Sunbeam solar Lebanon

What is Sunbeam Luna?

Sunbeam Luna is our mounting system for pitched roofs. The smart, stable construction allows for a rapid mounting process and optimally and safely supports the solar panels. This way, the solar panels can generate sustainable energy for years, without any issues.

What are sunbeam system flexible solar panels?

SUNBEAM system flexible solar panels are available in different models and with extra features. The SMART LITHIUM batteries is the next big step in battery safety and technology. The Plug & Play Range ensures a true effortless installation. The Drive Range offer the advanced energy storage for any size of marine propulsion.

Are rooftop solar panels a good idea for Lebanon?

Rooftop solar panels are offering the promise of a more normal way of living in Lebanon amidst an unsteady electricity supply - for those who can afford it.

Does Lebanon need solar power?

Lebanon has a target to source 30% of its electricity from renewables by 2030. However, some argue that LCEC and Lebanon's government have played little role in the rollout of solar in the country.

What is the share of solar energy consumption in the MENA region?

The below graph demonstrates the share of solar energy consumption in the MENA region in 2018, by country. Zooming in to the Lebanese market, the solar installations have ascended appealingly from 0.33 MWp back in 2010 to 56 MWp in 2018.
