

Svevind energy group Senegal

Who is Svevind energy?

SVEVIND Energy's Swedish project development team and the 20 Gigawatt project pipeline are now part of the internationally active Norwegian energy group Statkraft and will therefore continue to play a key role in the energy transition in Northern Scandinavia. CEO Wolfgang Kropp and parts of the Swedish Team visiting Markbygden 1101.

Why did Svevind energy get a partnership with Semurg invest?

One core element for this is the signed cooperation agreement with Semurg Invest, the owner and operator of the largest terminal facility of the port of Kuryk on the Caspian Sea. Another milestone was reached just before year ended as SVEVIND Energy received confirmation that Germany is backing our project with an so called investment guarantee.

Who does Svevind work with?

Svevind works with consultants, who are specialists in wind calculations, planning, project design, consultations and environmental impact descriptions. Once the project descriptions and environmental impact assessments are complete, the permit application or building notification is submitted.

Will 2023 be a groundbreaking year for Svevind Energy Group?

There are years in the history of a company that, in retrospect, are described as groundbreaking, as shaping the future. 2023 was exactly that for SVEVIND Energy Group - a year that will go down in the annals of company history. But first things first.

How does Svevind AB manage a wind farm?

Svevind AB establishes a subsidiary for the project, which is then responsible for project planning. Construction and ownership may also be through Svevind AB's subsidiaries. Once the wind farm has been approved, Svevind AB or the relevant subsidiary may sell all or part of the project, or retain it for its own construction and operation.

Why did Svevind energy buy Markbygden net?

In order to drive this process forward as effectively as possible, SVEVIND Energy divested the grid company „Markbygden Net" operating Sweden's most powerful substation, the 1700 megawatt substation Råbacken and related grid infrastructure to the Nordic grid operator Ellevio.
