What is a self-unloading mobile solar container?

Self-unloading mobile Solar Container. Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work.

How does a mobile solar container work?

The mobile solar container can be brought on a single truck. It can then be lowered to sit flat on the ground with hydraulic lifting gear. Once on the ground, the folded-up solar unit first emerges from the top. And then, step-by-step, unpacks itself into a full working solar array.

Why do petroleum companies use mobile solar containers?

Petroleum companies often operate in distant locations with limited access to grid power. This is where a mobile solar containers can act as an additional power source to run the equipment. Good choice for disaster reliefs whenever it is important to deliver electricity as quickly as possible.

What are the benefits of putting a solar array into a container?

One of the key benefits of putting the solar array into the container is mobility. You can simply transport this unit into even the most remote locations and start to harvest energy within minutes. SunBOX 35A at InterSolar and MSPO fairs in 2019. This year we've been showcasing our solution during two international tradeshow.

Solar container. Mobile Bauweise ermöglicht den Bau eines temporären Solarbetriebs an Orten ohne Stromanschluss.. Solar container präferenzen. Selbst Ladeplattform. Be- und Entladen auf ...

With the MOVEit SunBOX 35A, a single person can operate the unit and provide up to 13.5kWp of solar power to any remote site. The mobile solar container can be brought on a single truck. It can then be lowered to sit flat on the ground with hydraulic lifting gear.

SunBOX 30A - mobile PV based on 20' container. Mobile PV solution with the dimensions of a 20' container. Thanks to this, you can transport SunBOX 30A on a semi-trailer adapted to transporting containers. This system is equipped with ...
