Why is Tesla turning to Mozambique for graphite?

All rights reserved) Tesla is turning to Mozambique for a key component in its electric car batteries in what analysts believe is a first-of-its-kind deal designed to reduce its dependence on China for graphite.

Why is Tesla using graphite from Syrah's Mozambique mine?

The Benchmark CEO noted that Tesla's utilization of graphite from Syrah's Mozambique mine could also help the company avoid some sensitive issues, as environmental concerns have been brought up about some of China's mines.

Why did Tesla declare force majeure in South Africa?

The unrest prompted Tesla Inc. supplier Syrah Resources Ltd. to declare force majeure, while hitting output at sub-Saharan Africa's biggest aluminum smelter and disrupting South Africa's chrome exports. It's causing domestic economic wreckage, with Standard Bank Group Ltd. predicting the first quarterly economic contraction since 2020.

Is Tesla sourcing graphite from outside China?

A recently shared report has indicated that Tesla is looking to source some key battery materials such as graphite from locations outside China. Among these is reportedly one of the world's largest graphite mines in Balama, Mozambique, which is operated by Australia's Syrah Resources.

Where does Tesla get its graphite from?

Tesla has signed an agreement to acquire about 80% of the output from Syrah's processing plant in Vidalia, Louisiana, starting in 2025. As per a report from The Associated Press, Syrah's Louisiana plant sources its graphite from the company's Balama, Mozambique mine.

Do natural resources benefit Mozambicans?

His message that the nation's natural resources don't benefit locals resonates among Mozambicans, three in four of whom live on less than \$2.15 per day. "The deeper socio-economic factors and the election rigging are intertwined as causes of the current unrest," Roberto Tibana, who helped Mondlane write his election manifesto, said by phone.

The Benguerria Island Project is a 400kWp, fully off-grid solar PV & BESS system installed on the remote island of Benguerria off the coast of mainland Mozambique. Commissioned in Q4 2021 with the help of development partner Captive ...

"Save Mozambique!" have echoed across the nation since protests started Oct. 21. Police have met them with bullets and teargas, with at least 110 deaths, monitoring group Platform Decide said.
