off-grid projects in the Democratic Republic of Congo.

Globally, every year we purchase a grand total of energy amounting to nearly \$6T, and every year we waste over \$3T of that energy, mostly as rejected thermal energy. TESS captures wasted thermal energy from -40 to over 450F and redeploys it as thermal energy or for temperatures above 118F, converts it directly to electricity.

The Republic of Congo is preparing to launch a Gas Master Plan and new Gas Code, enticing investment in crude exploration and production. Speaking during a press conference at African Energy Week 2024, Bruno Jean-Richard Itoua, the country's Minister of Hydrocarbons, outlined how these policies will drive oil and gas projects forward. Leveraging ...

A Texas-based company, TESS Energy Solutions, addresses the dire needs of humanity, offering state-of-the-art designs that help businesses and individuals transform thermal energy into electricity. Central to TESS is the patented and synthetic phase change material (SPCM), patented and synthesized by Dr. Stephane Bilodeau.

THERMAL ENERGY SYSTEM SPECIALISTS 3 NORTH PINCKNEY STREET - SUITE 202 MADISON, WI 53703. PHONE: 608.274.2577 INFO@TESS-INC . Welcome to TESS.
