

Trinidad and Tobago nova solar energy

Who is building the largest solar project in Trinidad and Tobago?

Today, the Government of Trinidad and Tobago has officially given the green light to project partners, bp, Shell and Lightsource bp to begin construction of the largest solar project in the Caribbean.

Who owns 148mw solar project in Trinidad & Tobago?

The Government of the Republic of Trinidad and Tobago (GoRTT) has approved the consortium partners 148MW solar project. The consortium has reached the Final Investment Decision, with bp and Shell initially having joint shareholdings of the project (50/50).

Why is BP launching a green energy project in Trinidad & Tobago?

The Trinidadian government initiated a call for green energy projects as part of its Paris Agreement commitment to reducing greenhouse gas emissions from power generation by 15% by 2030. BP Trinidad and Tobago president David Campbell commented on the project's significance in advancing the country's renewables industry.

What is Lightsource BP's Solar Project in Trinidad and Tobago?

The proposal involves a consortium of Lightsource bp, bp and Shell working together to develop a solar installation that will have an output power capacity of 92MW (Megawatts) in Trinidad and Tobago. Watch a summary of activity from our worldwide solar development projects in 2023, as we work towards achieving our target of 25GW by 2025.

What is Lightsource doing in Trinidad and Tobago?

Learn more about some of our projects, our partners and the benefits we're bringing to businesses and communities in Trinidad and Tobago. The proposal involves a consortium of Lightsource bp, bp and Shell working together to develop a solar installation that will have an output power capacity of 20MW (Megawatts) in Trinidad and Tobago.

Is Trinidad ready for more solar power?

Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad, right? We're definitely ready for more solar power to make a better, more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.

PORT OF SPAIN, December 12, 2022 - Lightsource BP, Shell and BP have received government approval for Trinidad and Tobago's first large-scale solar project, Lightsource BP announced on Friday. The 148-MWp project is held ...

A consortium involving oil groups BP Plc (LON:BP) and Shell plc (LON:SHEL) has made a final investment decision (FID) on a 112-MW AC/148-MWp solar project in Trinidad and Tobago after reaching an agreement

with the government of the Caribbean island country.

The Trinidad & Tobago Solar Initiative In a significant expansion of our global footprint, we are proud to play a pivotal role in a landmark project in Trinidad and Tobago. This initiative marks the country's first solar plant, an ambitious endeavor poised to generate approximately 330,000 MWh of green electricity annually.

The projects will produce over 300,000 MWh of renewable electricity a year - enough to power up to 42,500 homes and helping to reduce carbon emissions. The plants are being constructed by Lightsource bp, a global leader in the development and management of solar projects. Both sites are expected to be operational in 2024.

The solar project is being constructed by a consortium made up of bp Alternative Energy Trinidad and Tobago (bpATT) and Shell Renewables Caribbean (Shell). Lightsource bp is the construction manager for the project. The project is expected to produce approximately 300,000MWh of green electricity per year.
