We design, qualify and manufacture form, fit, function custom power supplies. Ensign Power System, Inc. was established in 1995 by Bill Harris and Larry Choate. The Goal of the Company has always been to provide customers with the best possible solutions for their power supply needs.

Who owns Turks & Caicos electric grid?

The government-owned Turks and Caicos electric grid was privatized in 2006 through a series of acquisitions to create a vertically integrated structure. FortisTCI, a wholly owned subsidiary for Fortis Inc., is an international utility holding company that owns and operates generating stations and distribution lines across the islands.

How much does electricity cost in Turks and Caicos?

The 2015 electricity rates in Turks and Caicos are \$0.29 per kilowatt-hour (kWh), slightly below the Caribbean regional average of \$0.33/kWh. Like many island nations, Turks and Caicos is almost 100% reliant on imported fossil fuel, leaving it vulnerable to global oil price fluctuations that have a direct impact on the cost of electricity.

The Turks and Caicos Islands (abbreviated TCI; [7] / ' t ? : r k s / and / ' k e I k ? s, - k o ? s, - k ? s /) are a British Overseas Territory consisting of the larger Caicos Islands and smaller Turks Islands, two groups of tropical islands in the Lucayan Archipelago of the Atlantic Ocean and northern West Indies. [8] They are known primarily for tourism and as an offshore financial centre.
