How is Bess transforming the Philippine energy industry?

With the commercial operations of approximately 1,000 MW of BESS facilities across 32 locations in the Philippines, we are now ushering in a new era for the Philippine energy industry through significant improvements in grid reliability and the integration of more renewable power sources to the country's diverse energy mix.

How many Bess facilities does smgp have?

Since the first commissioned grid-scale 10 MW BESS facility in Masinloc in 2016, SMGP has completed and commenced the commercial operations of 21 BESS facilities located nationwide. In 2022, SMGP has completed a total of 390 MWh BESS capacity and is in the process of completing the additional 580 MWh this year.

How can smgp bridge the energy security gap?

BESS can be used to bridge the energy security gap by storing excess energy when it is available, and releasing it when demand is high. "When completed, SMGP expects the BESS business to contribute meaningfully to its revenues," the company said.

How many Bess projects is SMC completing?

SMC earlier said that its BESS projects are part of its Php124 billion capital expenditure for the year. It also announced in April that it is completing 31 BESS projects nationwide. Power Philippines is an independent online news publication that aims to provide the latest stories on the energy sector.

How many Bess facilities are there in the Philippines?

We are operating BESS facilities at 32 locations in the Philippines, across the regions of Luzon, Visayas, and Mindanao. Overall, we are putting up approximately 1,000 MW of BESS facilities, which will help ensure the reliability of the grid, especially in areas that are in most need of power quality solutions.

Could a Bess facility help stabilize a grid?

BESS facilities are seen as a solution to help stabilize a grid and prevent rotating brownouts like what happened earlier this week, as they can store energy produced by a power plant.

SMC Global Power Holdings, the power generation arm of San Miguel Corporation (SMC), has signed multiple energy storage contracts with Finland-based Wärtsilä Corporation, through its...
