

Türkiye van Vollenhoven solar

Türkiye (Turkey) has been ramping up its solar capacity in recent years and aims to become the third biggest manufacturer in the world by this year. Now on the fourth place, followed after China, Vietnam and South Korea, the country has introduced more measures to reach this ambitious goal.

Objectives: Treat-to-target recommendations have identified "remission" as a target in systemic lupus erythematosus (SLE), but recognise that there is no universally accepted definition for this. Therefore, we initiated a process to achieve consensus on potential definitions for remission in SLE. Methods: An international task force of 60 specialists and patient representatives ...

We recognize that initial investments can be a significant hurdle for many individuals and businesses eager to make the switch to solar power. That's why we're thrilled to offer our Rent to Own program, designed to provide you with a flexible, financially manageable path to owning your solar power system.

Türkiye's National Energy Plan predicts that solar will account for 28% of total installed generation capacity in 2035 and energy storage systems will reach 7.5 GW of installed capacity by ...
