

U S Virgin Islands solar panel bali

How much does a solar system installation cost in Bali?

For a standard rooftop solar system installation in Bali, you can expect around IDR 10 - 20 million (+/- USD 650 - 1,300) per kWp (kilowatt peak) installed. This price typically includes solar panels, inverter, and everything else you need to get a working on-grid solar system installation. Additional costs that may occur include:

Do solar panels work in Bali?

By using solar panels in Bali, Lombok, and the islands east Indonesia you will benefit from a great sun exposure year-round, with some areas better than others. On average, 1kW of solar PV (photovoltaic) system in Bali produces 4.2 kW-hours worth of electricity per day, year-round on average.

How much does a solar system cost in Bali and Lombok?

How much does a solar panel system cost in Bali and Lombok? For a standard rooftop solar system installation in Bali, you can expect around IDR 10 - 20 million (+/- USD 650 - 1,300) per kWp (kilowatt peak) installed.

What size Solar System do you need for a villa in Bali?

A 12.8 kW system is a pretty big system and may not be needed for a standard 2-3 bedroom villa in Bali. Villas around this size might find a 3-7 kW solar system sufficient. Here is another example from a medium-sized 3 bedroom villa in Umalas, South Bali.

Are solar panels a good investment in Indonesia?

Unlike years ago, solar panels and rooftop PV systems in Bali, Lombok, and other areas in Indonesia, are now quite affordable and make great financial sense.

How much does a hybrid solar system cost in Lombok?

Like most business and home owners in Lombok, Mr. Y decided to go for a solar energy system with batteries, a.k.a. a hybrid system, so that he can still power his house sufficiently during power cuts. The initial investment for a hybrid solar panel system such as this might look rather high at IDR 300 million (approx. USD 15,000).
