What types of batteries does Jauch offer?

Today, we offer a wide range of primary lithium batteries and rechargeable battery systems. Many of our batteries are available directly from stock. Customized battery systems with a battery management system. Jauch provides complete solutions for your battery system according to your requirements.

Where can I learn more about Jauch battery solutions and frequency control products?

Visit us at booth A5.502 to learn more about our battery solutions and frequency control products. Jauch is expanding its range of high-performance lithium ion round cells with two new designs: LI18650 and LI21700. These new cells are ideal for medical technology, power tools and industrial applications.

What solutions does Jauch offer?

Jauch provides complete solutions for your battery system according to your requirements. Standard cells and customized packs, from simple cells to intelligent battery packs for the most demanding applications. Individual Solutions We take care of special requests for design-in as well as all relevant safety aspects.

Where are Jauch batteries made?

Manufacturing in Villingen-Schwenningen Jauch production in Villingen-Schwenningen: Customized battery packs for medical or safety technology or the automotive industry, for example, where special requirements often have to be met, are manufactured here in ESD-protected rooms.

Who is Jauch quartz GmbH?

Jauch Quartz GmbH is one of the "Global Market Leader Champions" in 2024. The award is based on a scientific study conducted every year at the University of St. Gallen. Jauch has already been named a "Future Champion" several times. Now, for the first time, the company has joined the ranks of the "Global Market Leader Champions".

Find company research, competitor information, contact details & financial data for Jauch Battery Solutions GmbH of Ellwangen (Jagst), Baden-Württemberg. Get the latest business insights from Dun & Bradstreet.
