UPC Power Solutions Completes Purchase of 38 MW Wind Project from EDF Renewables North America. January 25, 2024. ACEN says US regulator approves acquisition of 8 Texas wind projects. June 7, 2023. PivotGen, ACEN to Acquire and Repower Texas Wind Farms. March 21, 2023. PivotGen 500 W Madison Street Suite 1000

Amphenol UPC connectors (Ultimate Power Connectors) are designed for hybrid electric vehicle (HEV) applications. UPC connectors have a lightweight and space-saving compact plastic shell. The 2-pole and 3-pole versions use RADSOK technology to achieve high amperage, less resistance, and lower voltage drop and T-rise.

Jan. 24, 2024 - UPC Power Solutions, a joint venture between ACEN, PivotGen and UPC Solar & Wind Investments, announced today the completion of its purchase agreement with EDF Renewables...

Born in 1972 in Belgrade, Serbia. Has vast experience in power network planning and analysis, gained on numerous international projects. Main areas of professional engagement are static and dynamic modeling and system stability analyses, power grid development and transmission capacity analyses.

UPC Power Solutions is ranked #2,172 out of 4,876 utilities nationwide in terms of total annual net electricity generation, and they are ranked #523 out of 723 utilities in terms of total annual net electricity generation from wind. UPC Power Solutions generated 10.3 GWh during the 3-month period between September 2023 to December 2023.

CHICAGO, Jan. 23, 2024 - UPC Power Solutions, a joint venture between ACEN, PivotGen and UPC Solar & Wind Investments, announced today the completion of its purchase agreement with EDF Renewables North America. The closing of this agreement involves the purchase of the lessee interests in the 38 MW Chestnut Flats operating wind project ...

The UPC's CITCEA coordinates the European iPLUG project, under the Horizon Europe programme, to develop power electronics solutions to allow a smooth integration of multiple renewable sources, energy storage systems and loads in the distribution grid.

Working alongside the principals of the UPC Renewables Group, this enables the firm to analyze and evaluate both the problems and opportunities in the financing, development, operation and sale of electricity and power generation assets and therefore identify technologies that provide unique and innovative solutions.
