Solar is notoriously "bursty" in nature due to clouds and whatnot. Basically, the only time you'd use the load port is when you want to schedule the on/off of the load, say, a night light coming on when the solar gets too low, or when you want to trigger a generator to power on when the battery is too low and the solar ain't cutting it.

Source: Presidencia de la Rep#250;blica Oriental del Uruguay. The Ministry of Industry, Energy and Mining came up with the Solar Plan in order to more effectively campaign for the use of solar water heaters and facilitate financing of the technology in the residential sector.
