

Uruguay solar wise

Is Uruguay a repeatable framework of energy sovereignty for developing countries?

Ramón Mendéz Galain believes so. Uruguay's former national director of energy in the Ministry of Industry, Energy and Mining, who was the impetus for the country's shift away from dirty fuels, has been promoting the country's success as a repeatable framework of energy sovereignty for developing countries.

Does Uruguay have a green energy grid?

Uruguay's power grid runs on 98% green energy. Here's how it got there : Planet Money : NPR How did Uruguay cut carbon emissions? The answer is blowing in the wind Ramón Méndez Galain was Uruguay's National Director of Energy from 2008 to 2015. His plan for the energy sector led to 98% of Uruguay's grid being powered by green energy.

What is Uruguay's energy future?

His vision for Uruguay's energy future was to cover that empty land with hundreds of wind turbines. Today, wind power accounts for around 40% of Uruguay's energy production. And, according to a 2008 law, all the wind in the country officially belongs to the Uruguayan people.

Does Uruguay have a wind power auction?

In 2009, Uruguay started holding auctions in which different wind companies from around the world came to bid on how cheaply they'd sell renewable energy to the country. In 2011, Uruguay held an auction intended to secure 150 megawatts of new wind power, which would have represented about 5% of the country's energy generating capacity.

Does Uruguay export energy to Brazil and Argentina?

Once a net importer of energy, Uruguay now exports its surplus energy to neighbouring Brazil and Argentina. Help us continue providing unbiased, in-depth coverage on climate change. Your donation ensures our newsroom remains independent and free from corporate influence.

Why did Uruguay start using wind turbines?

Avoiding nuclear power entirely, Uruguay first embraced wind turbines as a source of cheap, reliable power; providing 40% of the country's capacity in less than a decade.

Uruguay is the country with the second highest share of renewable energy electricity production (such as solar and wind) globally REN21 (2022), and leader together with Denmark, Ireland and Portugal in terms of wind energy production [1].
