

Vaillant solar panel New Zealand

What is the best solar panel pitch in Auckland?

In Auckland, with its 37-degree latitude, a 34-degree panel pitch is ideal. Variances in pitch angles show slight differences in solar productivity. A 50-degree pitch yields a 96% efficiency, a 10-degree pitch offers around 94%, and a flat roof provides about 88% of optimal output.

What are the best solar panels in New Zealand?

Introducing the full black HITEK Solar 330W PERC module! It just came out in March 2020 -- and is one of the best solar panels in New Zealand. With PERC or rear cells, sunrays bounce from its mirror underneath toward the cells, optimising your energy output. This results in a superb 22.5% efficiency, which is suitable for the country's weather.

How can solar power help New Zealand?

We're working with the sector on New Zealand's renewable energy and low-emissions transition. We're responsible for the governance and regulation of New Zealand's electricity industry. Solar power can help you become more self-sufficient, reduce your carbon footprint and reduce your energy costs.

When is the best time to install solar panels in New Zealand?

The best times for your solar panels to get and convert energy is when the sun is at its zenith, usually from 11am to 3 pm. So, make sure that nothing's getting between them and the sun at these times. With the fundamentals in mind, allow us to list down the top-of-the-line solar panels in New Zealand today!

Is going solar a good idea in New Zealand?

Going solar helps the environment - it creates clean, green energy and is a great way to reduce your carbon footprint. Going solar demonstrates your commitment to sustainability and will help New Zealand achieve its target of net zero greenhouse gas emissions by 2050. Is your property suitable for solar?

Which Hyundai solar panels are right for You?

If you're a large family or in need of more power than usual, Hyundai's HiE-S350SG might just be what you need. Hyundai's solar panels come in 350W and 390W to help you store and utilise more solar energy. The HiE-S350SG model measures 1068mm \times 1622mm \times 35mm and weighs 19.8kg.
