How much does a bigbattery battery cost?

On Sale! Current price is: \$8,550. On Sale! Current price is: \$12,350. Unmatched Energy Storage. BigBattery off-grid lithium battery banks are made from top-tier LiFePO4 cells for maximum energy efficiency. Our solar line-up includes the most affordable price per kWh in energy storage solutions.

What's new at bigbattery?

Like the HSKY ELITE, these feature built-in battery management systems, LCD screens, and incredibly efficient charging capabilities. While BigBattery's existing product line is really impressive, we are also excited about some of the upcoming products they have announced.

What kind of batteries does bigbattery offer?

As mentioned, BigBattery offers deep cycle batteries that you can use for a variety of purposes. They have 12V, 24V, 36V, and 48V configurations available. Their battery modules are also available in capacities that range from just 2kWh up to an enormous 14kWh! You can find the perfect battery module for your exact power storage requirements.

Where are bigbattery batteries made?

While some of its competitors manufacture their solar storage products off-shore in countries like China, BigBattery assembles its batteries right here in the United States, partially explaining why its reputation for quality is rising. What is the BigBattery Brand's Current Reputation?

Does bigbattery have a warranty?

Where other solar storage companies tend to offer a one-to-two-year warranty on their deep cycle batteries, BigBattery's impressive 10-year warranty demonstrates how much faith the brand has in the quality of its products.

Is bigbattery a good brand?

BigBattery also has a good reputation for its customer service, especially compared to its competitors. Where other brands, like Renogy, have a reputation for being difficult to deal with, BigBattery's customer service team is both responsive and very helpful.
