

WeChat State Grid Platform 96 off

Does WeChat have a connected ecosystem?

WeChat has a three-pronged connected ecosystem for consumers: (1) WeChat, the messaging app, (2) WeChat Pay, the FinTech service, and the (3) Weixin Mini Programs. (Tencent, 2021) The messaging service, WeChat, had 1.2 billion monthly active users (MAU) as of March 2020. (Tencent, 2021)

What is a WeChat app?

The app is a complete ecosystem that provides a user with everything that would otherwise require dozens of apps. It's a "one-stop" app for everything, and you don't even have to leave the app. According to the WeChat study, a typical WeChat user's day looks like this:

Is WeChat a super app?

Over the years, however, WeChat has evolved into a "super app" with a wide range of features that go far beyond messaging and now combines all the functionalities that are usually only available by using dozens of different apps. The genius of WeChat lies in its design and extensive list of features.

Is WeChat still a major revenue stream for Tencent?

Super app WeChat, operated by video gaming and social media giant Tencent Holdings, continues to strike a delicate balancing act between its role as a major revenue stream for the Shenzhen-based company and a vital public-service platform in mainland China, according to analysts.

Could WeChat revolutionise the smartphone World?

WeChat, China's leading social media platform, has done just that and has the potential to revolutionise the smartphone world the way the iPhone did. Launched in 2011 by Chinese tech giant Tencent, who would have thought that WeChat could make such waves?

What is a WeChat mini-program?

WeChat calls this concept "mini-programs", and the idea behind it is that users can access handy third-party features - photo filters, translators, taxis, payment services and more - within a single app. - within a single app. The advantage is that these features are available immediately, with no download or installation required.

Mini Programs are "mini-applications" built within the WeChat platform. WeChat allows 3rd party companies to develop Mini Programs providing advanced features to users that can run within the APP. The technology support the objective of WeChat to provide its users with all-in-one experience.

WeChat presents the ideal test case for the examination of covert online "opinion guidance" strategies deployed by the Chinese party-state. Not only is WeChat the most popular social media platform in China - thus giving the regime an overwhelming incentive to target users for "thought work" - but it is also designed in a way that ...

These apps are known as "Off-the-grid" chat messenger app that works even without internet connection or 2G, 3G, or 4G network coverage, somewhat like the Walkie-Talkie app for iOS and Android. These apps allow you to communicate with each other within a range of up to 100 - 200 meters, it works by broadcasting your encrypted data via the WiFi or bluetooth.

Editors' note: Recently there's been heated discussion of WeChat as an example of the "all-in-one app" trend that has been circling many tech circles. We would like to take the opportunity to share our official translation of a recent speech by WeChat founder Allen Zhang, Senior Executive Vice President of Tencent, and President of WeChat Business ...
