

Who owns the solar panels

Who owns solar panels? It's easy to assume that a solar installation on a roof means the householder owns it. However, that's not always the case. Between 2010 and 2019, the government's Feed-In Tariff (FiT) promoted the growth of domestic renewable energy production (not just solar) through a financial incentive. The FiT scheme offered ...

For peace of mind you may wish to consider an extended warranty option with the manufacturer of your solar PV panels. The lifespan of solar/PV panels is up to 20 plus years. In fact, many solar panels installed as early as the 1980s are still working at expected capacity and newer versions have expected lifespans of 40-50 years.

Our production lines, driven by automation and precision, are backed by decades of high-quality solar panel production, differentiating us in the industry.
