

Explore the themes shaping the energy transition with our monthly thought leadership. Blogs. Unique energy insight, spanning the renewables, energy and natural resources supply chain, to support strategic decision-making. Podcasts. Weekly discussions on the latest news and trends in energy, cleantech and renewables. The Inside Track

In 2024, the global landscape for Levelised Cost of Electricity (LCOE) continues to reflect significant advances in renewable energy technologies, with wind and solar power leading the way, according to the latest LCOE reports from Wood Mackenzie

Grid-connected energy storage deployments have enjoyed a compound annual growth rate (CAGR) of 74% worldwide in the years 2013 to 2018, with a "boom" in deployment figures expected over the next five years, analysis firm Wood Mackenzie has said. The five years up to 2018 saw energy storage "creeping into decarbonising markets".

Wood Mackenzie's modelling of energy transition pathways and the route to net zero Explore. Market Insights, Blogs, podcasts & newsletters ... Solar & Energy Storage Summit 23-24 April 2025, Denver Register now. Browse Events ... Many hurdles remain for Mozambique LNG NWS backfill: Beach downgrades reserves at troubled Waitasia ...

The US Energy Storage Monitor explores the breadth of the US energy storage market across the grid-scale, residential and... Read More & Buy Now ... Wood Mackenzie's modelling of energy transition pathways and the ...

3 ???&#0183; Wood Mackenzie's China utility-scale energy storage outlook is a 30+ page report containing charts, tables and graphs providing an in-depth analysis of the Chinese utility-scale energy storage market.

The Energy Storage Data Hub is a dynamic tool identifies new markets & opportunities, into the burgeoning and complex global energy storage landscape. ... Wood Mackenzie's modelling of energy transition pathways and the route to net zero Explore. Market Insights, Blogs, podcasts & newsletters Market Insights; Horizons; Blogs;

ENH approached Wood Mackenzie in May 2018 to help it design a strategy to maximise the value of its LNG resources. It aimed to play a more active role in the global gas market and in the development of Mozambique's gas future.

global energy storage markets. This page is updated on a rolling basis and can be bookmarked for quick and easy access to reports on both short- and long-term market analysis, pricing forecasts, infrastructure updates and topical insights. ...

Energy Transition. In depth analysis of the energy transition and the path to a low carbon future. CCUS. Explore the future growth potential for carbon capture, utilisation and storage. Hydrogen. The latest views from our global experts on the rise of the hydrogen economy. Electric vehicles

Amec Foster Wheeler announces today the award of a detailed design and engineering contract by Sasol Petroleum Mozambique Limitada for Phase 1 Tranche 1 of the PSA development for surface facilities, located at Temane, 600km north of Maputo in Mozambique.

Enough money has been invested into long-duration energy storage (LDES) technologies and projects over the past three years to result in 57GW of deployments. That's according to Wood Mackenzie Power & Renewables, which added up investment figures into the technology class, finding US\$58 billion of commitments have poured in since 2019.

Emerging markets for storage will be on the rise in 2025, and Saudi Arabia will be in the forefront. Wood Mackenzie's new forecasts for battery storage capacity to be installed over the next decade will show Saudi Arabia leaping up the rankings to become one of the world's 10 largest markets.

Wood Mackenzie's modelling of energy transition pathways and the route to net zero Explore. Market Insights, Blogs, podcasts & newsletters Market Insights; Horizons; ... Ten-year MOU with critical annual deployment data and supporting information on global stationary energy storage deployments from 2022-2032. \$5,990. Commodity Market Report

U.S. independent Anadarko and its co-venturers in Mozambique's Offshore Area 1 formally sanctioned its Mozambique LNG project last week. Anadarko is developing Mozambique's first onshore LNG facility, initially consisting of two LNG trains with a total nameplate capacity of 12.88 million tonnes per annum (mtpa).
