

Zambia rhofa energy

CURE Zambia's recently installed micro-grid solar energy system is keeping the hospital operating smoothly despite a nationwide energy crisis. [Skip to content](#) [Click here to start browsing the Christmas to CURE gift catalog.](#)

For example, the International Renewable Energy Agency has called for the world's hydropower capacity to double in less than 30 years to help meet climate targets set at the United Nations Climate Change Conference. But Zambia shows that simply embracing more hydropower investment won't make all of our challenges disappear.
