

How many MW is a solar power plant in the Ivory Coast?

The authorities in the Ivory Coast have completed a 37.5 MW solar plant, with a second development phase now underway to increase its capacity to 80 MW. The first phase of a solar power plant in the northern part of the Ivory Coast has been inaugurated.

How much solar power does Ivory Coast have in 2023?

Ivorian Energy Minister Mamadou Sangafowa Coulibaly has also revealed plans to expand the capacity of the Boundiali plant to 80 MW. According to the International Renewable Energy Agency (IRENA), Ivory Coast had 46 MW of installed solar at the end of 2023. This content is protected by copyright and may not be reused.

How much does the Ivory Coast electricity project cost?

The project, which has a total cost of EUR 75.6 million (\$81.8 million), is expected to power 70,000 homes, saving 60,000 tons of CO₂ equivalent per year. It is creating more than 300 direct and indirect jobs during construction. The project is part of efforts to diversify electricity production in the Ivory Coast.
